Summary of Test Differences —X—X—X—X—				
Name	Length of the program (l)	Length of the permuted program		
	$(\leq 2l(l!))$	Number of Differences		
shared_mutex.cpp	4	66	66	
mutex.cpp	2	6	0	

This table lists the number of differences in the test results. The The tests were run 2 times to ascertain the determinism. The number of tests that were rejected due to inconsistencies were 0.
